

PRO RECOVERY FORMULA

PRODUCT DESCRIPTION Carbohydrates-proteins powder for the glycogen storage and a quick regeneration. Enriched with first-class whey protein isolate from CFM, and high-quality co-factors and glutamine for muscle growth and a strengthened immune system. The protein synthesis is stimulated by the rise of the amino acid concentration in the blood as well as by the improved receptiveness of the cells and thereby promotes the recovery of the exhausted muscles.
As a prebiotic food fibre, the inuline strengthens the defensive forces and supports the digestion, by which the utilisation of the single micronutrients is promoted.

ADVANTAGES

- Wide spectrum of effects: glycogen storage, immune defense, muscle constitution
- Top quality protein from cross-flow microfiltration
- Enriched with vitamins, minerals and trace elements.

UTILISATION

For an optimal recovery, take directly after exertion. For support of muscle build-up, take as a snack in between and up to 1 hour before training.

FLAVOUR

STRAWBERRY
BANANA

INGREDIENTS Fruit powders, whey protein isolate, dextrose, fructose, maltodextrine, inulin, minerals, red beet juice powder, citric acid, flavours, thickeners, vitamins.
